

# P4F colloquium 2025

## Thursday 29 May 2025

### Presentations of fellows from the Divisions of Optics, HiLASE, and ELI Beamlines: Part 2 (10:45 - 12:00)

time	[id] title	presenter
10:45	[38] Tuning Laser Produced Colliding Plasmas as Efficient Sources of Light and Particles	BEYENE, Girum
11:00	[39] Fabrication of high performance transparent plasmonic pn junction by pulsed laser deposition	ABBASI, Shahab Ahmed
11:15	[40] Development of Fe-based medium entropy alloy using laser material processing for cryogenic engine application	KUMAR, Himanshu
11:30	[41] Study of stray radiation at a laser-driven ion beamline	LEFEBVRE, Helena
