Anabella Araudo, Jakub Gazdos, Jan Benacek

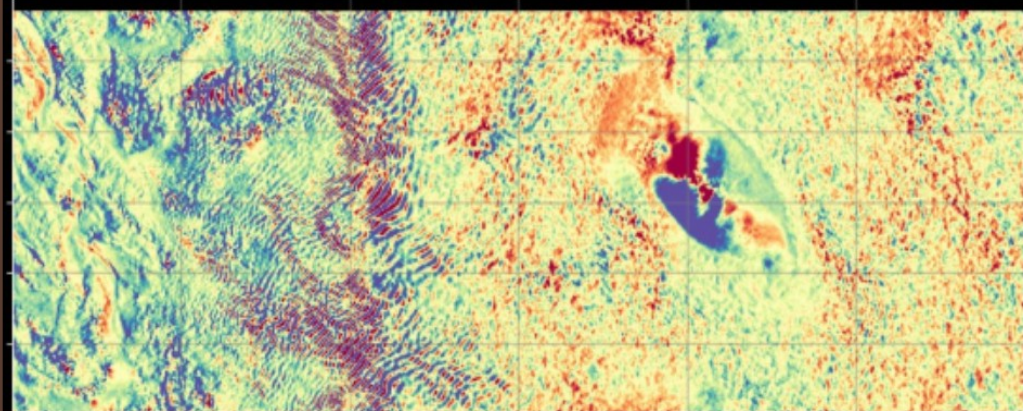

f2f PIC meeting

Prague edition 2026

29 . 09. 2026

- **Warm welcomes** to the
Institute of Physics
of the Czech Academy of Sciences :
Fyzikální ústav (FZU)
- Brief history of FZU : [here](#)
- Contact & address : [here](#)

Discussions and synergies on astrophysical plasma with PIC simulations
- Prague 2026 edition

September 29, 2026 to October 7, 2026
Slovanka
Europe/Prague timezone

Enter your search term

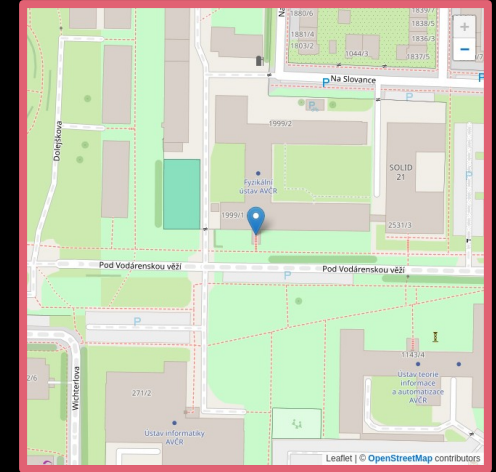

Indico page : [here!](#)

(check it regularly – schedule might change as we go)

Room(s) & wifi

- We are at the “Slovanka” campus
- Nearest station : Ládví (metro, tram, buses + shopping quarters)
- Main event : room “Sál V. Dvořáka”
(Dvorak hall) A/1.NP/6
→ main building entrance

Wifi : EDUROAM + guest
(cf card in the room)

- Zoom link + pwd shared via e-mail

Please **do not share the link on public domains**.

People connecting that are not recognised by MT will be removed from the zoom room

- Presenters in-person + remote :

please upload the slides on the indico page,

or sent them to MT – way before your talk please

- You can also use your own PC if you wish and **share your screen/slides on zoom**
- In-person : **make sure your PC mic & speakers are turned off!**
- Online :
 - please use your First-name Last0name as a zoom label
 - If you can/want, please keep your camera on and be mindful of your mic
 - Raise your virtual hand, or use the chat to interrupt – questions better asked in vox

- Most work presented and discussed is ***preliminary*** :
 - Please be mindful of what is being shared outside the bounds of this workshop.
 - Keep that in mind in terms of steering the discussion(s)
- Ask questions, clarifications, make comments, reach out to the speakers ++
initiate discussions : **no passive attendance!**
- Be aware of ECRs (especially doctoral researchers)
& calibrate the pedagogical tone of the questions :
we want to focus both on the technical details + understand the global picture too
- That said... Do not hold back on questions + comments :
this is not a workshop meant for a presentation-carousel
→ priority goes to discussions & feedback

- Coffee, tea and (some) snacks breaks :
 - Morning (before we start the workshop)
 - Afternoon

→ just outside the room we are in
- Lunch breaks : at the Slovanka jidelna (3-5min walk, public canteen).
Information [here](#) (also the menu for the week – also in English)
Can pay with card
- We have a couple of buffer breaks :
meant to be breathers, or perhaps used for longer discussion if needed.

- We have each night three suggestions for dinner places @19.00pm
- Tuesday : Cobolis (brewery, very close here)
- Wednesday : Cafe Louvre (nice establishment)
- Thursday : Oishi sushi (nice Japanese-Czech (con)fusion)

You may find both the websites + gmap links
on the indico schedule blocks for each.

- Please let MT know if you will NOT be attending a specific dinner plan asap
 - we need to book a table for X amount of people

Prague is a city with a lot of things to experience

(i.e, art, music, historical context, hikes, culinary options, science-focused outreach)

- Talk to the LOC for recommendations
- Beware of tourist-traps!
please be mindful of local habits
- The public transport is fantastic, so you can rely on it

We are here to discuss our projects,
be productive
and improve:

be ready for more interactive chat than monologues ;)

Thank you for joining from different corners of the
(geographical + PIC thematic) world.

Let us the PIC astro-shock f2f meeting begin!
